PMC WINS LOUDSPEAKER OF THE YEAR AWARD WITH **fact.8**[®]

At a star studded event, Peter Thomas received the highest accolade for a high end loudspeaker from HiFi Choice Editor, Dan George.

The fact.8[®] was painstakingly tested, retested and then finally chosen as the very best loudspeaker available in the 'High End' £2000+ category.

The exceptionally experienced judging panel concluded that the fact.8[®] was the complete performer and included the following comments:

"It is capable of a great performance, with superb bass extension, good tonality and sensitivity and some intelligent well thought out tuning controls.

"This is then presented in one of the most handsome cabinets we have seen in a while. Virtues that take it to the top of the class"

'The Loudspeaker of the Year' simply adds to the vast array of accolades which have already been attributed to this phenomenally successful and groundbreaking design
